===== Most killer diseases come from the disease of the mind. What a man eats and drinks is not the only cause of disease, but the state of his mind if unchecked and regularly renewed by the Word of God can cause many infirmities of the body. The diseases of the mind are quiet but very dangerous killers. They usually start from a wrong thought, an unpleasant event or experience, negative things we have heard other people say about us, sexual harassment or abuse, lose of a loved one, disappointments, low self-esteem, etc. When the diseases of the mind creep in, they do so subtly and unsuspectingly. Their operations are not usually seen because they work from within the mind or the heart. They are usually patient in their work, working slowly and tearing down a man s health, until they have fully created strongholds with deep roots in a man s life which will eventually lead to sickness, or some sort of evil occurrences. We all have unpleasant experiences but the way we deal with them matters and to a large extent determines the state of the health of our body. One of the commonest results of the diseases of the mind is high blood pressure, which if unchecked can lead to stroke. In this book, I will show you the diseases of the mind we should guard our hearts and minds against and how to deal with them. GET YOUR COPY TODAY! ORDER NOW!!.
