The purpose of this essay is to show how Veblen s basic theory of the Leisure Class relates to Gilman s notion of power relations between the sexes in the 19th century. Taking a closer look on the economic situation of women in the 19th century, we find them to be the main consumer of economic goods and actively participating in what Veblen calls wasteful consumption. Although many aspects of their criticism are no longer valid, the question raised by Veblen and Gilman concerning economic independence and equality between the sexes remains pertinent today. 40 pp. Englisch.
