## Lectures to sugar planters

By Great Britain. Imperial Indies

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 50 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1906 Excerpt: . . . equal to about 50 pounds phosphate of lime, an amount furnished by about 140 pounds of good commercial superphosphate. If your soil is deficient in carbonate of lime, then you must use an available but not acid form of phosphate such as is found in basic slag phosphate, precipitated phosphate, and high grade raw Peruvian guano (the latter, however, contains nitrogen); in this case you must double the amount and the cost of the phosphoric acid application. I may mention in passing that, when the amount of phosphoric anhydride is stated, by multiplying it by 2-18 you find the corresponding amount of (tricalcic) phosphate of lime; this is useful to remember as both terms frequently occur in records of analyses of manures. Now, gentlemen, you will probably be ready with this question, We usually apply our manures in a ready mixed condition. What must be the...

### Reviews

*An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It's been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.*

-- **Beverly Hoppe**

*Extremely helpful for all class of individuals. Better than never, though I am quite late in starting reading this one. I realized this publication from my father and dad suggested this ebook to discover.*
