Reviews

This written publication is fantastic. This can be for anyone who statte that there had not been a well worth reading through. I realized this pdf from my i and dad recommended this publication to discover.

(Maye Schoen)

BULLETIN - UNITED STATES GEOLOGICAL SURVEY VOLUME 53-54

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 120 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1889 Excerpt: . . . value of e , and its difference from observed e is given in the sixth column. Finally, in the seventh and eighth columns are inserted the correction $e_{20}-e$ and the value e_{20} of electro-motive force which hold for t_{20} . In addition to these data the table contains values parenthetically inserted. These are derived from the constants for the calibration if carried only as far as the boiling point of sulphur, to the exclusion of zinc. Hence these constants, being derived similarly to the extrapolation constants of Chapter I, are at once comparable with them. Table 16. --Calibration of thermo-couples Nos. 17, 18, 22, 35, 36. Table 16. --Calibration of thermo-couples Nos. 17, 18, 22, 35, 36--Continued. Table 16. --Calibration of thermo-couples No. 47, 18, 22, 55, 36. --Continued. Table 16. --Calibration of thermo-couples Nos. 17, 18, 22, 35, 36. --Continued. From the constants contained in these tables I have calculated the values of e when the difference of temperature varies between $T-20$ 100, and $T-201$, 500, for the reason that I shall make use of these values below. In general there are three sets of values of e_M available; the first of these is calculated with the constants, including the zinc calibration; the second with the constants applying only as far as the sulphur calibration contained in this chapter; and the third with the constants applying as far as the mercury calibration contained in Chapter I. The last two sets having been made respectively in Washington and...
